Formatted Test Document

Introduction

This document contains various formatting elements to test the PDF to Markdown converter's ability to preserve formatting. The converter should be able to identify headers, bold text, italic text, and lists.

Formatting Examples

This paragraph contains **bold text** and *italic text*. It also has ***bold italic text*** to test multiple formatting combinations.

Key Features:

- Text extraction from PDF documents
- Conversion to Markdown format
- Preservation of formatting elements
- Support for multiple page documents
